

Self-Adhesive Reinforcement/ Repair Kit

Package contains approximately one (1) yard of self-adhesive reinforcement/repair material.
For best results, apply reinforcement/repair material to a clean, dry surface.

Easy-to-use! Simply cut to the desired size, peel off backing, and attach to the underneath side of your boat cover. Reinforcement/repair material is ideal for padding stress points or repairing wear-areas that may develop over time. Add to the life of your boat cover by protecting it from sharp areas on windshields, trolling motors, and other accessories!
